Dual Enrollment/Post-Secondary Enrollment Options
Informational Night at Belmont Technical College

St. Clairsville, OH (November 5, 2010) — Belmont Technical College will be hosting an informational session about Dual Enrollment and Post-Secondary Enrollment Options (PSEO) for all high school students and their parents on Wednesday, November 17 beginning at 6:00p.m. The session will be held at the BTC Main Campus in St. Clairsville, in the Red Room 191.

The Dual Enrollment/PSEO Program is designed to provide a college experience for qualified high school students, grades 9 through 12. Students can earn both college credit and high school graduation requirements at the same time. This session will provide information about the Dual Enrollment/PSEO Program benefits, risks, requirements and the enrollment process.

High school students can enroll in gateway general education requirement courses that can be applied to fulfill the Ohio Transfer Model and the Associate of Arts and Associate of Science degrees. All gateway courses are 4 quarter credit hours. The flexible scheduling at BTC allows high school students the ability to enjoy high school activities that fit around college classes. Students enrolled in the Dual Enrollment/PSEO program can choose from a variety of diverse classes, learn from college professors, and expand their opportunities.

"The most important value of the Dual Enrollment/PSEO programs is that students can start their college education early," stated Judy Sandstead, Assistant to the Vice President for New Program Development. "BTC's quality education affords students to embark on their journey to a career and life-long learning."

For more information about BTC's Dual Enrollment/PSEO program, visit www.btc.edu or call Michael Sterling, Director of Recruitment at 740-695-9500 ext. 1563.

Founded in 1971, Belmont Technical College is one of 23 community colleges in the University System of Ohio. The College offers more than 30 associate degrees and 13 certificate programs to serve the multiple needs of area citizens. Belmont offers a comprehensive array of credit and non-credit programming at the main campus in St. Clairsville. The College also has locations in Cadiz and Woodsfield, Ohio.
