Marketing and Advertising Restrictions
Promotion of Partnership to Domestic and International Students

In order for the University and College to reach out to partners and the community effectively, it is important to monitor the impression conveyed through all forms of communication such as advertising, publications, and signage. The sum total of all impressions generated by these communications must be effective and meaningful to the audiences with which the partners communicate.

Therefore, the parties agree that any use of the other's name, trade name, trademark, logo, and tagline, or any other defining symbol or name associated with either entity during the term of this Agreement shall be for the sole purpose of promoting this Agreement. Express written permission or a limited license is required to use the other party's name, trade name, trademark, logo, tagline, or any other defining symbol or name associated with either entity. Neither party will use the other's name or symbols in a way that would cause confusion in the public mind as to the relationship between the parties. All written materials associated with this agreement must distinctly note the termination date of the Agreement, the degrees within the Agreement, and the average additional hours required to complete the completion degree.

Any and all promotional materials, including written, verbal, videographic, electronic, or multimedia of any kind must be reviewed by both prior to any use or distribution.
